

Thursday 12th March

We are bringing our The Tiny Seed theme to an end today. It has been really interesting for us and the children and our classrooms are starting to resemble greenhouses as the seeds the children planted are really growing!

Next week we will move onto our new book which will have a focus on healthy eating and trying new foods.

Our phonics sounds will be er, ure and air.

In maths most of the children have really delighted us with a solid awareness of pairs of numbers that total 10. We will be adding a homework to reinforce this to Tapestry so please check there.

Our maths focus next week will be on using and applying positional vocabulary.

At the end of the day if your child needs to return to the classroom because they have left something behind, please can you keep them with you until all of the children have been dismissed and then send them back in.

We have spent a lot of time this week discussing the need for hygiene. Hand washing has been a big feature within both classes. We have discussed singing happy birthday twice while rubbing soap into hands. All children have been encouraged to wash hands after sneezing and coughing and to cough into their elbow. The children must be independent in blowing and wiping their own noses. Soap and tissues are available to all the children.

Both classes will have Forest School on Tuesday 17th March and Gymnastics on Wednesday 18th March.

Please check Tapestry for the homework task.

Please send water bottles in empty on Mondays. We have had occasions where some of the water bottles have leaked and some of our new books have been ruined.

Next week we will begin our running sessions. It has been great to see children bringing in sturdier trainers but not all the children have got them yet.
